

Notes:

- 1) Klipper Host is an Acer Chromebox running Ubuntu 20.04.3
- 2) USB Nozzle Cam not shown
- 3) USB 3.0 Hub not shown (connects Host to MCU 1, MCU 2, Nozzle Cam)
- 4) Hub has power switches for each USB client device – MCU 2's port's power switch to remain in the off position so it is powered down when the switched 5VDC power supply gets shut off
