

**Notes:**

- 1) Klipper Host is an Acer Chromebox CX12 running Ubuntu 20.04.3 LTS
- 2) – DELETED –
- 3) USB 3.0 Hub connects Host to MCU1 (Octopus v1.1), MCU2 (RP2040 on rPi Pico), MCU3 (Xiao on ERCF Easy BRD), and Nozzle Cam
- 4) Hub has power switches for each USB client device – MCU 1-3 port's power switch to remain in the off position so they are powered down when the switched DC power supplies power down
